Challenges

Challenges

Worked

- 'Borrowing' code
- Easy and simple layer structure VS Complicated structure
- Content first, layout second, shazow last

Not Worked

- Changing designs
- Too much time spent on design concepts
- Bigger is better
- Initial planning structure

Ethical Issues

Fun

I tried to make the website user friendly as much as possible.

Learning new things like Flexbox and layout structures, SASS.

Seeing the website come to life.

The website uses only three colours, Red, Black and White. For those who are not receptive to red it may play
